

Manure Management and Ag E&S Plans

WCD Municipal Roundtable 2022

Chelsea Gross

Nutrient Management Specialist/Ag Conservation Technician

Manure Management Plans

- Applies to anyone with livestock (including horses and even 1 chicken)
- Anyone can write their own manure management plan
- Residents can contact WCD for guidance on writing a manure management plan and the manure management plan workbook
- We will hold workshops for manure management plan writing
- We have an equine video series on our website that walks horse owners through writing a manure management plan

Ag Erosion and Sediment Control Plans

- Required when there is 5,000 square feet or more of plowing, tilling, or animal heavy use areas
- PADEP has created a fillable Ag E&S plan template and video guidance for writing an Ag E&S plan on the clean water academy <https://pacleanwateracademy.remote-learner.net/course/view.php?id=235>
- Activities such as equipment buildings, barns, ponds, or arenas require a standalone erosion and sediment control plan or NPDES permit if 1 acre or more
- Stream crossings may require Chapter 105 general or joint permits
